ENROLLMENT STATUS

This field should be left blank unless this record is to be included in the enrolled students sub-file. Definition of degree credit enrollment (resident and extension): enrollment which includes full-time and part-time college-level students taking work creditable toward a bachelor's or higher degree or some other formal recognition below the baccalaureate, whether class meets day or evening. However, this should include students still in high school but taking college-level courses for degree credit. This excludes students in non-degree credit extension, correspondence, adult education, auditors, special non-credit students, short courses, and students enrolled for individual lessons only.

Codes:

- 1 = New Student - Terminal Occupational, First-Time Freshmen, Special and Unclassified, **First Professional**, and/or Graduate students who have no college credits at this program level prior to the immediately previous summer sessions. Students who transfer in with acceptable credits at this level are to be classified as "New Transfer Students".
- 2 = New Transfer Student - A student new at a given level for this term who has recognized college credits from other institution(s) and is admitted as a transfer student. Such students given graduate credit for course work taken elsewhere should be considered as new graduate transfer students. Students who transfer in during the immediately previous summer sessions are to be classified as new transfer students.
- 3 = Continuing Student - A student enrolled at the same institution and in the same program level in the previous regular session.
- 4 = Returning Student - One who was readmitted to the same program level of instruction after an absence of one or more regular sessions. A former student transferring back to his original institution after attendance at another institution is classified as a returning student, provided he is in the same program level. Otherwise, he would be classified as a new transfer.
- 5 = Auditor Only.
- 6 = Unclassified -You may use this code in lieu of trying to decide which category above may be appropriate.

Edit: Must be zero, blank, or one of the above codes. When applicant and enrolled sub-files are combined to form a single record, two additional edit checks are performed. First - if this item is coded 1 or 2 and item 15 (degree intent) is not 8 (unclassified), then item 5 (acceptance status) must be 1 (accepted). Second - if this item is coded 3 or 4, then item 5 (acceptance status) must be zero or blank. If item 6 (enrollment status) is 6, then item 15 (degree intent) must be 8.

Edit: If item 5 (acceptance status) is 1 (accepted) and item 15 (degree intent) is **greater than 0 and** less than 4 and item 22 (transfer institution) is blank, then this must be greater than 199 and less than 801 or 999 unless item 31 (ACT-Composite score) is supplied. CLASS RANK

This item is required only of new freshmen applicants (accepted not enrolled, accepted enrolled). Keep this data element for continuing and returning students if they originally had this item in their records for earlier SDFs. Convert high school class rank to a percentile. If information is available in quartile or quintile form, use the mid-point of the interval for an estimate of the percentile. (For example, 1st quintile - percentile = 90.) If class size and rank in class are available, use the following formula to determine percentile:

$$\text{Percentile Rank} = 100 - ((\text{rank}/\text{class size}) \times 100)$$

In using this calculation, results of 00 should be entered as 01.

Fractions should be truncated. Therefore, the maximum percentile class rank is 99.

Edit: Leave blank for missing data.

For New Freshmen: If item 5 (acceptance status) is 1 (accepted) and item 15 (degree intent) is **greater than 0 and** less than 4 and item 22 (transfer institution) is blank and item 36 (CEEB code) is not 999999 (GED) and this item is not numeric, then this item is missing and an error message is generated.

The flag will be set to "Y" if the applicant or student graduated from high school or received a GED during the previous twelve months. If the high school graduation year flag that is generated is "Y", then CEEB code must indicate a current high school.

Codes:

Y = yes

Edit: An undergraduate is one with a degree intent (item 15) of 1, 2, or 3, or a degree intent of 8 accompanied by a class level of 6, including applications, whose acceptance status (item 5) is greater than 0 (applied) and degree intent item (15) is 1, 2 or 3, and transfer institution (item 22) is blank. HIGH SCHOOL CEEB CODE

This field is required for all new freshman applicants. Keep this data element for continuing and returning students if they originally had this item in their records for earlier SDFs. If high school graduation year flag is "Y" then CEEB code must indicate a current high school. Codes are those which are published annually by The College Board in School Code List. Codes for North Carolina high schools are given in Appendix D.

Special Codes:

349990 = A North Carolina home educated student.

999990 = An out-of-state home educated student in the United States in which the state and high school are not known.

XX9990 = An out-of-state home educated student for which the state is known.

349999 = A North Carolina high school whose code cannot be found in the Code Book. For example, a new high school or one which has been closed.

999997 = An out-of-state high school in the United States in which the state and high school are not known.

XX9997 = An out-of-state high school in which the state is known, but the individual school code cannot be found in the directory. The field "XX" should contain the CEEB state code as given in Appendix D.

999996 = Adult Diploma (This is a regular high school diploma, but it is earned from a community college. It is not a GED.)

999998 = A foreign high school or equivalent institution.

999999 = A GED.

Edit: This field must contain a valid CEEB code or one of the special codes indicated above. For New Freshmen: If item 5 (acceptance status) is greater than 0 (applied) and item 15 (degree intent) is 1, 2, or 3 and item 22 (transfer institution) is blank and this item is invalid, a warning message is generated. This code is required for all undergraduate applicants except rejected out-of-state applicants. A rejected in-state applicant with coursework in progress should be assigned an MCR category code based on the assumption that all coursework in progress will be completed with at least a grade of "D" or its equivalent.

MCR Category Codes

Category 1

Applicants who meet the minimum high school course unit requirements for the year graduated:

(A) Applicants awarded the high school diploma prior to the 2005-2006 school year who meet all of the 2003-2004 minimum high school course unit requirements.

(B) Applicants who meet all of the 2005-2006 minimum high school course unit requirements.

APPLICANTS WHO MAY REQUIRE SPECIAL CONSIDERATION

Category 2

Applicants who are less than 24 years old, do not meet all of the 2003-2004 minimum high school course unit requirements and who were awarded the high school diploma prior to the 2003-2004 school year: institutions may waive some of the minimum requirements for these applicants.

Category 3

Applicants who are at least 24 years old and are seeking admission as non-traditional students: institutions may waive some of the minimum requirements for applicants in this category.

Category 4

Applicants with superior academic records in high school who have completed the 11th grade and have met virtually all the minimum course requirements as well as the requirements for high school graduation: institutions may waive some of the minimum requirements for these applicants.

Category 5

Transfer applicants who

(A) have received the associate of arts, the associate of science, the associate of fine arts, the baccalaureate or any higher level degree, or

(B) have successfully completed all of the core courses needed to satisfy the requirements of the Comprehensive Articulation Agreement between the University of North Carolina and the North Carolina Community College System, or

(C) have completed at least six (6) semester hours of degree-credit hours in each of the following subjects: English, mathematics, the natural sciences, the social and behavioral sciences, and a second language;

Institutions may waive some of the minimum requirements for these applicants.

Category 6

Applicants who apply to the North Carolina School of the Arts and do not meet the minimum high school course unit requirements: UNCSA may admit such applicants on the condition that course deficiencies be removed by successfully completing required courses in the UNCSA high school program by the end of the freshman year.

Category 7

Other applicants who, due to unusual or special circumstances, do not meet all of the minimum high school course unit requirements but who have achieved a superior academic record, as measured by grades, rank in class, admissions tests scores, the rigor of courses taken, or who demonstrate special talents: institutions may waive some of the minimum requirements for applicants in this category upon a finding that such individuals are qualified. This finding may be made by the chancellor or by the designated institutional officer to whom the chancellor expressly delegates the authority.

Category 8

Applicants who are graduates of a home school; a high school that follows an outcomes-based, performance-based, or competency-based curriculum; a high school that is not regionally accredited; or a high school that evaluates student performance by means other than course grades (e.g., portfolio analysis):

Institutions may waive some of the minimum requirements and require the submission of test score data to include either:

1. SAT I and ACT subscores and total scores; or
2. SAT I and SAT II achievement scores with a minimum of three SAT II achievement scores to include:
 - in English: Writing/English Composition or Literature
 - in Mathematics: Math Levels I, IC, II, or IIC
 - in Science: Biology, Physics, or Chemistry

Category 9

Applicants who did not meet the requirement for the fourth unit of mathematics but were granted an exception. Beginning in Fall, 2006, students receiving admission by this exception will have 12 months from the first day of the first semester of the first year to fulfill the requirement. The course taken to fulfill this mathematics requirement may count as elective credit, but cannot be used to fulfill general education requirements. Exceptions may be granted for the fourth unit of mathematics requirement under this policy until September 1, 2010.

Category 10

Applicants for whom the MCR Category Code is not applicable and transcript review code is 4 or 5 [rejected GED recipients, UNCSA diploma students, NCSU Ag. Inst. applicants, applicants from foreign high schools (excluding American high schools in foreign countries)]

Category 11

Applicants who do not meet all of the **2005-2006** minimum high school course unit requirements (MCR).

Category 12

Applicants who graduated from high school prior to **2005-2006** and do not meet all of the minimum high school course unit requirements for their high school graduation year.
